Re: Company Name Change Notification

Dear Ms. Burkett:

Effective May 9, 2000, "Clark Refining & Marketing, Inc." officially changed the company name to "The Premcor Refining Group." Please note this is a change of name only, not ownership. The following information is provided to facilitate this change with the Agency.

<b><u>Generator's US EPA ID No:</u></b>	ILD005109822
<b><u>Generator's IL ID No:</u></b>	0310240005
<b><u>Facility's IL ID No.:</u></b>	031600030
<b><u>New Company Name of Owner:</u></b>	The Premcor Refining Group Inc.
<b><u>Previous Company Name of Owner:</u></b>	Clark Refining & Marketing, Inc.
<b><u>New Operator Company Name:</u></b>	The Premcor Refining Group Blue Island Refinery
<b><u>Previous Operator Company Name:</u></b>	Clark Refining & Marketing, Inc., Blue Island Refinery

Should you have any questions or concerns, please feel free to contact me at 708.385.5000, extension 315.

Kind regards,  
The Premcor Refining Group

PAF

ACKNOWLEDGEMENT OF NOTIFICATION  
OF HAZARDOUS WASTE ACTIVITY  
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

Re: Clark Oil & Refining Corporation  
ILD 005109822 *C TSD PA 9*

Dear Mr. Adamkus,

The purpose of this letter is to request USEPA to change the designation of Clark Oil as treater, storer, disposer to the correct designation as generator only.

On November 18, 1980, Clark submitted a Part A application, copy enclosed. Due to regulatory uncertainty, Clark sought interim status as a storer and treater. As a result of this application, Illinois EPA currently considers Clark as engaging in treatment in tanks (T01), other treatment (T04), storage in containers (S01) and storage in tanks (S02). Clark recognizes these designations as erroneous since Clark only generates waste.

Except for the possibility of one incident discussed below, Clark has not engaged in the storage, treatment or disposal of hazardous waste since the implementation of the RCRA system.

On November 3, 1981, eight yards of leaded tank bottoms (K052) of Clark were disposed at a permitted off-site disposal facility pursuant to the required manifest and permit, copy enclosed. The waste was analyzed and the permit applied for on August 24, 1981. The permit was received by Clark 67 days later on October 30, 1981. This incident may have resulted in the storage of hazardous waste since, while awaiting permit issuance, the waste was stored in a lined and covered roll off box. (Please note the enclosed analysis demonstrating that this solid waste did not contain any hazardous or toxic properties.)

Valdas Adamkus  
Regional Administrator  
USEPA, Region V

Dear Mr. Kawatachi,

Please consider this letter as a withdrawal of the Part A application for the above facility. Since November 19, 1980, the operation of the above facility did not include treatment, storage or disposal of hazardous waste subject to 40 CFR Part 265. Such activities will not be performed at the facility.

I certify under penalty of law that this letter was prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to be the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

RE: Permit Application Withdrawal Letter  
FACILITY NAME: Clark Oil & Refining Corporation  
U.S. EPA ID NO.: ILD 005109822

Dear Mr. Berbom:

This is to acknowledge receipt of your letter of January 10, 1985 requesting the withdrawal of your Part A Hazardous Waste Permit Application. Your request was not signed and certified by an authorized person, in accordance with 40 CFR Part 270.11 (enclosed). Please resubmit your request with the correct signature and certification, so that your withdrawal can be processed. Your request must contain a detailed explanation why the application should be withdrawn. Also, if at any time, since November 19, 1980, your operation included treatment, storage, or disposal of hazardous waste subject to 40 CFR Part 265, a closure plan must be filed with the withdrawal request. Requirements for closure are found in 40 CFR Part 265 Subpart G (enclosed).

We will assume your facility requires a permit, if no response is received in this office within 30 days. Accordingly, we will continue to process your application.

Please feel free to contact the Authorization and Information Section at (312) 886-6148 for assistance, if you have any questions. Please refer to "Permit Application Withdrawal Letter," in all correspondence on this matter.

Sincerely yours,

Arthur S. Kawatachi, Chief  
Information Unit

Dear Mary:

This letter is in response to your correspondence dated August 26, 1985, regarding some specific Part A withdrawal candidates. After a review of our files, and conversations with Field Operations personnel, we have the following comments.

1. Borden - Illiopolis  
ILD005158548 (Non-hazardous waste) - Previous inspection reported non-hazardous waste - OK for Part A withdrawal.
2. Ashland Chemical - Moline  
ILD000670844 (Transfer Facility) - Previous inspection indicated storage less than 10 days, should be regulated as Transporter. Part A can be withdrawn.
3. Rexnord - Downers Grove  
ILD005455571 (WWTU & Storage less than 90 days) - Previous inspection reports confirm WWTU and storage less than 90 days. OK for Part A withdrawal.
4. Commonwealth Edison - Stickney  
ILD000665463 (Protective Filing) - No previous inspection - please send written request to me for field inspection prior to withdrawal of Part A.
5. Clark Oil & Refinery - Blue Island  
ILD005109822 (Storage less than 90 days) - Please send me a written request for a field inspection as facility may be required to go through formal closure.

RE: Request for Information--Withdrawal of Part A  
FACILITY NAME: Clark Oil and Refining Corp  
U.S. EPA ID NO.: ILD005109822

Dear Mr. Bernbom:

In a letter dated January 27, 1984, the United States Environmental Protection Agency Region V, requested you to submit additional information to support your request of August 2, 1983 for withdrawal of your hazardous waste permit application. A response to our letter was due on February 27, 1984. Since we have not yet received the additional information requested, our records will continue to show the above facility as a regulated hazardous waste management facility subject to the Resource Conservation and Recovery Act, as amended (RCRA), and regulations promulgated thereunder.

Based on the information that was submitted, your facility appears to store wastes generated on-site for fewer than 90 days as defined in 40 CFR Part 262.34 (enclosed). Please review these requirements to verify that your facility qualifies as an accumulation facility. If it does, and a permit is not required, please submit your determination in writing, signed and certified by an authorized person in accordance with 40 CFR Part 270.11 (enclosed), requesting that your application be withdrawn. If at any time since November 19, 1980, your operation included treatment, storage, or disposal of hazardous waste subject to 40 CFR Part 265, a closure plan must be filed with the withdrawal request. Requirements for closure are found in 40 CFR Part 265 Subpart G (enclosed).

If your review indicates that a permit is required, but certain information on your application is incorrect, please submit a revised Part A with the appropriate changes to this Regional Office. We will assume your facility requires a permit, if no response is received in this office within 30 days. Accordingly, we will continue to process your application.

Please contact the Regulatory Analysis and Information Unit at (312) 886-6148 for assistance, if you have any questions. Please refer to "Request for Information--Withdrawal of Part A," in all correspondence on this matter.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

RE: Permit Application Withdrawal Letter  
FACILITY NAME: Clark Oil and Refining Corporation  
U.S. EPA ID NO.: ILD 005 109 822

Dear Mr. Bernbom:

This is to acknowledge receipt of your letter of August 2, 1983, requesting the withdrawal of your Part A Hazardous Waste Permit Application. Your request was not signed and certified by an authorized person, in accordance with 40 CFR Part 270.11 (enclosed). Please resubmit your request with the correct signature and certification, so that your withdrawal can be processed. Your request must contain a detailed explanation why the application should be withdrawn. Also, if at any time, since November 19, 1980, your operation included treatment, storage, or disposal of hazardous waste subject to 40 CFR Part 265, a closure plan must be filed with the withdrawal request. Requirements for closure are found in 40 CFR Part 265 Subpart G (enclosed).

If no response is received in this office within 30 days, we will assume your facility requires a permit. Accordingly we will continue to process your application.

Please feel free to contact the Technical, Permits, and Compliance Section at (312) 353-2197 for assistance, if you have any questions. Please refer to "Permit Application Withdrawal Letter," in all correspondence on this matter.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

Enclosure

Re: Blue Island Refinery  
ILD005109822

Dear Mr. Vollmer:

This letter is in response to recent correspondence from Mr. Kuykendall, received on July 28, 1983.

Please be advised that Clark Oil & Refining Corporation does not store, treat or dispose of hazardous wastes. As a result, we believe that the financial assurance requirements are not applicable.

We recognize that Clark has Interim Status to store, treat and dispose. By the enclosed correspondence to USEPA, we are requesting that this status be modified.

Sincerely,

John T. Bernbom  
Director of Environmental Control

Clark Oil & Refining Corporation  
Part A Hazardous Waste Permit Application Withdrawal  
Blue Island Refinery  
ILD 005 109 822

Clark submitted Part A applications on November 17, 1980 for refineries located at Blue Island and Wood River, Illinois. Due to regulatory clarification, it became clear that interim status was not necessary and, on August 2, 1983 Clark requested both the U.S. EPA and Illinois EPA that the Part A applications be withdrawn. Withdrawal of Part A for Wood River was promptly granted in response to the August 2, 1983 correspondence. No action has yet been taken on the withdrawal of Part A for the Blue Island refinery. What follows is a chronology of Clark's efforts:

November 17, 1980	Part A submittal
August 2, 1983	Clark request to USEPA
August 2, 1983	Clark request to Illinois EPA
January 26, 1984	USEPA request for more information
December 18, 1984	USEPA recognition that Clark is an accumulation facility only
January 10, 1985	Clark request to USEPA
June 19, 1985	USEPA request for certification
July 24, 1985	Clark certification
October 8, 1985	Clark letter to USEPA (based on direction from Harry Chappel of Illinois EPA)
October 11, 1985	Clark letter to Illinois EPA

Administrator, United States EPA  
Region V, RCRA Activities  
P. O. Box 7861  
Chicago, Illinois 60680

Dear Administrator:

Enclosed please find Notifications of Hazardous Waste Activity (EPA Form 870012) for the terminals of Clark Oil and Refining Corporation located in Bartonville, Illinois, Brecksville, Ohio, Clermont, Indiana, Columbus, Ohio, Green Bay, Wisconsin, Hammond, Indiana, Hartford, Illinois, Marshall, Michigan, Milwaukee, Wisconsin, St. Paul, Minnesota and Taylor, Michigan. This submittal is made pursuant to the Federal Register notice of October 30, 1980 (Vol. 45, No. 212, page 72024).

This submittal is made in order to assure that Clark Oil is properly registered in the event that sludge from leaded tanks and related facilities is removed from any terminal. The designation K053 is used based on two assumptions: 1) leaded tank bottoms are the only hazardous wastes generated at a petroleum terminal and 2) the designation applies to terminals regardless of the fact that the regulations state the leaded tank bottoms are from the "refining" industry.

If you require any further information, or if you have any comments concerning this submittal, please contact the undersigned.

Sincerely,

  
John T. Bernbom

RE: Interim Status Acknowledgement USEPA ID No. ILD 005 109-822  
FACILITY NAME: CLARK OIL AND REFINING CORPORATION

Dear Mr. Bruggink:

This is to acknowledge that the U.S. Environmental Protection Agency (USEPA) has completed processing your Part A Hazardous Waste Permit Application. It is the opinion of this office that the information submitted is complete and that you, as an owner or operator of a hazardous waste management facility, have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. However, should USEPA obtain information which indicates that your application was incomplete or inaccurate, you may be requested to provide further documentation of your claim for Interim Status. Our opinion will be reevaluated on the basis of this information.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265, or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The printout enclosed with this letter identifies the limit(s) of the process design capacities your facility may use during the interim status period. This information was obtained from your Part A Permit application. If you wish to handle new wastes, to change processes, to increase the design capacity of existing processes, or to change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

As stated in the first paragraph of this letter, you have met the requirements of 40 CFR Part 122.23; your facility may operate under interim status until such time as a permit is issued or denied. This will be preceded by a request from this office or the State (if authorized) for Part B of your application. Please contact Arthur Kawatachi of my staff at (312) 886-7449, if you have any questions concerning this letter or the enclosure.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

1. AMOUNT – Enter the amount.

2. **UNIT OF MEASURE** — For each amount entered in column B(1), enter the code from the list of unit measure codes below that describes the unit of measure used. Only the units of measure that are listed below should be used.

PROCESS	PRO- CESS CODE	APPROPRIATE UNITS OF MEASURE FOR PROCESS DESIGN CAPACITY
<b>Storage:</b>		
CONTAINER (barrel, drum, etc.)	S01	GALLONS OR LITERS
TANK	S02	GALLONS OR LITERS
WASTE PILE	S03	CUBIC YARDS OR CUBIC METERS
SURFACE IMPOUNDMENT	S04	GALLONS OR LITERS
<b>Disposal:</b>		
INJECTION WELL	D79	GALLONS OR LITERS
LANDFILL	D80	ACRE-FEET ( <i>the volume that would cover one acre to a depth of one foot</i> ) OR HECTARE-METER
LAND APPLICATION	D81	ACRES OR HECTARES
OCEAN DISPOSAL	D82	GALLONS PER DAY OR LITERS PER DAY
SURFACE IMPOUNDMENT	D83	GALLONS OR LITERS
UNIT OF MEASURE	CODE	UNIT OF MEASURE
GALLONS . . . . .	G	LITERS PER DAY . . . . . V
LITERS . . . . .	L	TONS PER HOUR . . . . . D
CUBIC YARDS . . . . .	Y	METRIC TONS PER HOUR . . . . . W
CUBIC METERS . . . . .	C	GALLONS PER HOUR . . . . . E
GALLONS PER DAY . . . . .	U	LITERS PER HOUR . . . . . H

PROCESS	PRO- CESS CODE	APPROPRIATE UNITS OF MEASURE FOR PROCESS DESIGN CAPACITY
<b>Treatment:</b>		
TANK	T01	GALLONS PER DAY OR LITERS PER DAY
SURFACE IMPOUNDMENT	T02	GALLONS PER DAY OR LITERS PER DAY
INCINERATOR	T03	TONS PER HOUR OR METRIC TONS PER HOUR; GALLONS PER HOUR OR LITERS PER HOUR
OTHER ( <i>Use for physical, chemical, thermal or biological treatment processes not occurring in tanks, surface impoundments or incinerators. Describe the processes in the space provided; Item III-C.</i> )	T04	GALLONS PER DAY OR LITERS PER DAY
UNIT OF MEASURE	CODE	UNIT OF MEASURE
ACRE-FEET. . . . .	A	HECTARE-METER. . . . . F
HECTARE-METER. . . . .	F	ACRES. . . . . B
ACRES. . . . .	B	HECTARES. . . . . Q

**EXAMPLE FOR COMPLETING ITEM III (shown in line numbers X-1 and X-2 below):** A facility has two storage tanks, one tank can hold 200 gallons and the other can hold 400 gallons. The facility also has an incinerator that can burn up to 20 gallons per hour.

III. PROCESSES (continued)

C. SPACE FOR ADDITIONAL PROCESS CODES OR FOR DESCRIBING OTHER PROCESSES (code "T04"). FOR EACH PROCESS ENTERED HERE INCLUDE DESIGN CAPACITY.

TO<sub>4</sub> indicates use of portable containers such as drums, rectangular steel boxes, and truck mounted vacuum tanks for the dual purposes of storage and treatment. Process design capacity when utilized by individual and combined usage of equipment is estimated at about 5000. Being portable the equipment is used and stored throughout the entire facility as needed.

IV. DESCRIPTION OF HAZARDOUS WASTES

- A. EPA HAZARDOUS WASTE NUMBER — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.
- B. ESTIMATED ANNUAL QUANTITY — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.
- C. UNIT OF MEASURE — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS . . . . .	P	KILOGRAMS . . . . .	K
TONS . . . . .	T	METRIC TONS . . . . .	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

D. PROCESSES

1. PROCESS CODES:
- For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of at the facility.
- For non-listed hazardous wastes: For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.
- Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).
2. PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

1. Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B,C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.
2. In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter "included with above" and make no other entries on that line.
3. Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below) — A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes

**NOTE: Photocopy this page before completing**

*You have more than 26 wastes to list.*
